

COMMUNICATORS/TOYS

Puzzle Communicators

Interchangeable! A complete set of five spectacular talking puzzles. Record messages for each puzzle on a separate level of the communicator. Easy to record and easy to change subjects. Either place or take the puzzle piece and your message plays. The communicator has five levels with a level announcer for each level. Total record time is 300 seconds. Buy as a complete set which includes the Communicator Base and five puzzles (#3088) or the Communicator Base and One Puzzle (#3079). Additional puzzles can be purchased for use with #3079.

Size: 13"L x 12"W x 5"H. Requires 4 AA Batteries.

Mr. Potato Head Communicator

Put on a silly face! The most popular toy of all time is now a communicator! Record up to 8 messages on 6 levels for a total of 288 seconds of recording time. When you insert a body part, your message plays. Great for developing placement skills and for learning parts of the body. Mr. Potato Head comes with additional accessories.

Size: 12"L x 7½"W x 8"H. Requires 4 AA Batteries.

#325

RoboTalk

Fun communicator!

Push on eyes, ears, nose or mouth and each will play your pre-recorded message. Lights turn on when message plays. Great for teaching parts of the face. Records four 5-second messages. Can be wall-mounted (accessories included).

Size: 8"L x 8"W x 4½"H. Requires 4 AA Batteries.

#1413

Mailbox 6-Level Communicator

Send a Postcard! Kids love mail and all the workings of the post office. We have taken a popular mailbox and added a recordable 6-level communicator which speaks your pre-recorded message when a letter is posted. It is essentially a sorting communicator because the message can only play when the proper shaped mail is inserted in special slots. Six wood letters/postcards included.

Size: 15"H x 10½"W x 8"D. Requires 4 AA Batteries.

#3089

Shape Talker

Now with 3 messages!

This brightly coloured shape recognition container gives three separate 5-second messages which you can pre-record. Match the shape to the opening, drop it in and be rewarded with your message. Great for developing eye-hand coordination.

Size: 8"D x 8"H. Requires 4 AA Batteries.

#367

Talking Containerizing Toy

Sort, stack and drop!

As this simple task is repeated, shape matching and identification are learned. When the object hits the bottom, your pre-recorded message will play (up to 20 seconds). Remove the sorting lid and larger objects can be used for simply putting in and taking out. You can adjust the sensitivity to accommodate items of differing weights. (Very lightweight items made of a soft material, such as a cottonball, will not activate the message and lights). Comes with 3 blocks; 1 round, 1 square and 1 triangle.

Size: 6¼" x 6¼". Requires 4 AA Batteries.

Talking Square Containerizing Toy

#636

Motivating! All the benefits of the round containerizing toy but more blocks and more places for sorting, stacking and dropping! All sides of the square have shape-sorting walls. When the object hits the bottom, your pre-recorded message (up to 20 seconds) will play. Take the top off and it will talk when other objects are dropped.

Size: 10¼" x 7¼" x 6". Requires 4 AA Batteries.

#365

Talking Bubble

This talking bubble has four brightly-coloured buttons and two pull balls which control a six message voice recording chip (record time per switch is 2.5 seconds-plenty of time to record a short sentence). When the child presses or pulls the ball, your pre-recorded message will play. Great for communicating ideas to others.

Size: 10½" x 5½". Requires 4 AA Batteries.

#2220 Talking Bubble

#2230 Talking Bubble with Lights & Vibration

This product talks and entertains too! Features a four message recorder/player with a set of lights and a vibrator. Total record time is 20 seconds at 5 seconds per message.

Size: 10½" x 5½". Requires 4 AA Batteries

Traffic Lights

Ideal for teaching children crossing skills! This innovative wall-mounted light introduces children to an important element in their environment - traffic. The red, yellow or green light turns on, music plays, and the device vibrates when you touch each lens. Wall-mounting accessories included.

Size: 26" x 10½". #1810 requires 2 C Batteries, #1820 requires 2 C and 4 AA Batteries

#1810 Busy Box Traffic Light

#1820 Vocal Traffic Light

Match & Talk w/Levels

Make your match! Our new 15-level matching communicator is a fun way to associate letter or picture matching with sound and word recognition. Place icons, letters or words in the three icon holders on top and one matching item inside the star icon. Press the textured switch plate to start scanning. Press again to make a match and to play your pre-recorded message. Device also has auditory cueing that can be turned on or off and adjustable speed scanning. Total record time is 300 seconds, 3 messages per level and 5 seconds per message.

Size: 15"L x 11"W x 15"H. Requires 4 AA Batteries.

#871

Story Teller

Spin a story! Place any object on the spinning disk, press the oval textured plate and you will be rewarded with lights and your pre-recorded story. Our spinning disk is great for object identification or storytelling. Total record time is 20 seconds. Toy included may vary.

Size: 12½"L X 9¼"W x 4½"H. Requires 4 AA Batteries.

#1022

Talking Bowling Pins

"Hey, you hit the pins!"

When one or all of the bowling pins are knocked over with the 10" soft rubber ball, your message will play. Record and re-record your special message as often as you like. Total record time is 20 seconds.

Pin size: 14½" H, Base size: 17" x 17" x 1½". Requires 4 AA Batteries.
#208

Talking Magic Roller

Roll out a story!

The slightest touch rolls the cylinder and starts your story, songs or ABCs. This learning toy has a built-in sequential recorder which allows you to record and play. For example, roll and the first message is spoken; roll again and the second message is heard; etc. Simultaneously, the lights flash and the roller vibrates. Further, if the child cannot roll the unit, a capability switch (not included) can be used which runs on the built-in roller motor. The roller sequencer also can be removed from its stand and played with on a table or floor. Total recording time is 5 minutes.

Roller Size: 6"D x 6"H. Requires 4 AA Batteries. Base Size: 8½"L x 12"W x 5"H. Requires 2 AA Batteries.

#1652

Parts of a Whole Puzzle

Geometric shape maze! Our fabulous geometric shape maze will delight users. Just move one half of a shape through the maze to match up with the other half. We added knobs to make it easier for small hands to grasp the pieces and slide through the maze. You can also pre-record messages so when the child makes a correct match they will be rewarded with your special story about each shape. Total record time is 300 seconds on six levels. Shapes can be moved to different starting locations on the board so the game can be different each time. Puzzle also acts as a switch, which turns on a device when the puzzle is correctly completed.

Size: 17"W x 14"D x 2½"H. Requires 4 AA Batteries.
